In Nigeria, Matthew Oluwasesin has successfully launched the Multiply Network in the Oyo and Osun states. Desmond from Sierra Leone is busy with graduations and the arrival of the new intake of students for his Bible college, and hopes to launch Multiply in Lungi (Port Loko district). Stephen from Zambia is organizing a gathering of 200 leaders to promote Multiply later in September. He sends news of his church's work with street children, the school they have founded in church buildings and youth empowerment projects which they have established to provide skills for the younger men and women.
